OBE HANDBOOK

COURSE OUTCOMES

DEPARTMENT OF ZOOLOGY

COURSE OUTCOMES

SEMESTER 1

ZY1CMT 01: NON – CHORDATE DIVERSITY

- CO I** Improve knowledge about the unity of life
- CO II** Understand the diversity of invertebrates
- CO III** Explain evolutionary significance of invertebrates
- CO IV** Understand invertebrate evolution

SEMESTER 2

ZY2CMT 02 : CHORDATE DIVERSITY

- CO I** Understand the diversity in chordates and their systematic position
- CO II** Explain the physiological and anatomical peculiarities of some vertebrate species through type study
- CO III** Develop basic skills to learn animal anatomy
- CO IV** Understand economic importance of some chordates

SEMESTER 3

ZY3CMT 03 : PHYSIOLOGY AND IMMUNOLOGY

- CO I** Explain the relation between structure and function of the various systems in human body
- CO II** Understand physiological process in humans
- CO III** Understand various physiological disorders and treatments
- CO IV** Understand the functioning of our immune system and various immune disorders

SEMESTER 4

ZYM4CMT 04 : APPLIED ZOOLOGY

CO I Explain basic knowledge and skills in applied branches of zoology

CO II Equip the students for self-employment with scientific knowledge, to perform profitably & confidently

CO III Understand the technology of domestication and farming of useful organisms in an eco-friendly way
